

# S series

ELECTRONIC LINEAR WEIGHERS

3cm ■ max size product

## Features - Descrizione

S series electronic linear weighers are the suitable system for automatic dosing every goods of medium granulometry (until 3cm).

The 2 independent vibrating channels ensures the accuracy of weighing by varying the vibration.

The packs support (fitted as standard) is adjustable in height and depth.

S series can create till 4 MIX of different products.

S series weighers are available from 1 to 4 weighing heads and it can be connected to our automatic packaging machines, at a later time.

### TECHNICAL FEATURES:

- Suitable products (max): 3 cm
- Vibrating channels: 2 (for each head, weigher)
- Available head weighers: from 1 to 4
- Weight range: from 50gr to 10Kg (according to the product's volumetry)
- Recipes: 50
- Structures: stainless or painted steel
- KIT "SOFT SLOPE" for fragile products
- Product's flowing: flat surface, dimple plate, teflon coating

ELECTRONIC LINEAR WEIGHERS

8cm · max size product

## Features - Descrizione

K series electronic linear weighers are the suitable system for automatic dosing every goods of large granulometry (until 8cm). 4 independent vibrating channels (2 bulk and 2 fine channels) and 2 detection photocells of stuck products ensure the accuracy of weighing by varying the vibration. The packs support (fitted as standard) is adjustable in height and depth. K series can create till 4 MIX of different products. K series weighers are available from 1 to 4 weighing heads and it can be connected to our automatic packaging machines, at a later time.

### TECHNICAL FEATURES:

- Suitable products (max): 8 cm
